Steel Erector/Rigger

Description

Tradestech Recruitment require Steel Erectors and Riggers for a long term contract, on a major project, in Edinburgh.

As a Steel Erector, you will be responsible for assembling and installing steel structures according to design specifications. We ideally want local applicants or people within reasonable commutable distance from Edinburgh.

Requirements

- Proven experience as a Steel Erector with the correct Skilled CSCS card.
- Proficiency in reading construction drawings.
- Strong knowledge of safety regulations and procedures related to steel erection.
- Ability to work at heights and in various weather conditions.
- IPAF would be an advantage, but not essential.

Responsibilities

- Assemble and erect steel frames, beams and structural components according to construction drawings and specifications.
- Ensure compliance with safety regulations and procedures at all times.
- Perform welding, bolting, and other connection methods to secure steel members together.
- Maintain tools, equipment, and work areas in a clean and organised manner.

Contacts

Please submit your details to be considered for this opportunity.
